

FRESH

Schaumbalsam

FRESH INTENSE

Foam balm for cracks and calluses.

The intensely nourishing balm with the FRESHup complex, 15% urea, and shea butter immediately and deeply provides the skin with highly concentrated moisture and binds it long-lastingly. With regular use, callus formation is effectively reduced and cracked, rough skin areas are prevented. Despite the rich formula, the foam absorbs quickly and leaves no greasy film on the skin. Lemongrass and the fresh, fruity oils from grapefruit and orange give the foam its unique scent and provide the skin with a pleasant feeling of freshness.

- for cracks and calluses
- with 15 % urea and shea butter
- reduces calluses
- non-greasy, quickly absorbed

FRESHUP-Complex

This active substance combination of chamomile oil, combined with bisabolol, panthenol and grape seed oil, cares for and protects stressed foot skin.

Usage

Shake well before use. Before the first application, gently press the small separating tab at the top to release it. Massage an about cherry-size amount evenly and gently into the cleaned skin daily.
